

Crop Nutrient Management Meeting

January 2024 – Smith Center

Please rate your learning in this meeting. Your honest responses are valued. Your responses will be used to assist us to make improvements in the design of our educational programs. Please complete or circle to indicate your response.

1. Overall, how much did you learn from this program? 1 (nothing) 2 3 4 5 (a lot)
2. My ability to develop environmentally responsible nutrient management plans. (Select one response for the “before” and one response for the “after”.)

Before participation

After participation

1 (low)	2	3	4	5 (high)	1 (low)	2	3	4	5 (high)

3. List one action you intend to take as a result of this program.

4. List one behavior you intend to change as a result of information learned in this program.

5. What was the most important thing you learned in this session?

6. Based on the information learned today, I am confident in making fertility recommendations.

_____ Yes
_____ No
7. Soil sampling/testing is an important component of developing your nutrient management plan.

_____ Yes
_____ No
8. Variable rate application can be a tool for reducing fertilizer recommendations and fine-tuning your fertility program.

_____ Yes
_____ No
9. List the most important thing you learned about managing your fertility program with your tillage system?

10. Please list more in-depth topics you would like more information about.

11. How many acres do you currently manage?

_____ 0-250
_____ 251-500
_____ 501-750
_____ over 751

THANK YOU for attending and for your input!
