

K-STATE

Research and Extension

Post Rock District

Working as a professional focused on youth development is fascinating. My purpose is to empower parents, caregivers, mentors, and youth themselves with strengths-based and solution-focused skills to make a positive difference for self, one's family, within their own community, and beyond! I am empowered with optimism every day! What a reward to be part of the village developing our future leaders – teachers, doctors, farmers, electricians, scientists, mayors, etc.!!
